Or look for the Marine Stewardship Council blue eco-label in stores and restaurants. 2. When you buy seafood, ask where your seafood comes from and whether it was farmed or wild-caught. 3. Tell your friends about Seafood Watch. The more people that ask for ocean-friendly seafood, the better! 	<p>Why Do Your Seafood Choices Matter?</p> <p>Worldwide, the demand for seafood is increasing. Yet fish we enjoy eating are over-fished and, in the U.S., we import 80% of our seafood to meet the demand. Destructive fishing and fish farming practices only add to the problem.</p> <p>By purchasing fish caught or farmed using environmentally friendly practices, you're supporting healthy, abundant oceans.</p> <p>Contaminant information provided by: ENVIRONMENTAL DEFENSE FUND</p>
